Breakfast and Panel Speakers

The faces of working people in Canada are rapidly changing. In the past few years we have seen a drastic increase in the use of temporary foreign workers (TFWs).

Under the Conservative government the Temporary Foreign Worker Program has expanded exponentially with over 200,000 TFW's entering the Canadian workforce each year as agricultural workers, Live-in-Caregivers, manufacturing workers, construction workers and service and hospitality workers.

Please join us on Saturday, May 2nd to hear the voices of Temporary Foreign Workers from across Canada and learn about their experiences living and working as migrants.
